## Health disparities in kidney failure

KIDNEY FAILURE HAS A DISPROPORTIONATE IMPACT ON PEOPLE OF COLOR. COMPARED TO WHITE AMERICANS, THE LIKELIHOOD OF DEVELOPING KIDNEY FAILURE IS:

4.3X

greater for Black Americans

2.3X

greater for American Indians

1.6X

greater for Asian Americans

2.2X

greater for people of Hispanic/Latino ethnicity than people of non-Hispanic/Latino ethnicity.

THE AMERICAN KIDNEY FUND (AKF) PROVIDES FINANCIAL ASSISTANCE TO:

1 out of 21

White Americans with kidney failure

1 out of 12

Black Americans with kidney failure

1 out of 10

Hispanic/Latino Americans with kidney failure

## Why people with kidney failure need financial assistance from AKF:

Kidney failure is a disability. Dialysis is life support. Treating kidney failure and its comorbidities is more consuming than a full-time job: more than **80%** of people on dialysis cannot work.

798

Arizonans on dialysis and living with transplants received grants from AKF in 2023 to pay for their insurance premiums and other health care-related costs not covered by insurance.

\$2,629,844

in charitable assistance from AKF ensured that low-income Arizona dialysis and transplant patients could afford their lifesaving health care in 2023.

**INSURANCE  
BREAKDOWN OF  
AMERICANS WHO  
RECEIVED CHARITABLE  
PREMIUM ASSISTANCE  
FROM AKF IN 2023**

Medicare Part B: **44.6%**

Medigap: **23.4%**

Employer group health plans (including COBRA): **17.2%**

Medicare Advantage: **1.4%**
