Health disparities in kidney failure

KIDNEY FAILURE HAS A DISPROPORTIONATE IMPACT ON PEOPLE OF COLOR. COMPARED TO WHITE AMERICANS, THE LIKELIHOOD OF DEVELOPING KIDNEY FAILURE IS:

4.3x

greater for Black Americans

2.3x

greater for American Indians

1.6x

greater for Asian Americans

2.3x

greater for people of Hispanic/Latino ethnicity
than people of non-Hispanic/Latino ethnicity.

THE AMERICAN KIDNEY FUND (AKF) PROVIDES FINANCIAL ASSISTANCE TO:

1 in 20

White Americans
with kidney failure

1 in 13

Black Americans
with kidney failure

1 in 10

Hispanic/Latino Americans
with kidney failure

Why people with kidney failure need financial assistance from AKF:

Kidney failure is a disability. Dialysis is life support. Treating kidney failure and its comorbidities is more consuming than a full-time job: more than **80%** of people on dialysis cannot work.

1,226

Missourians on dialysis and living with transplants received grants from AKF in 2024 to pay for their insurance premiums and other health care-related costs not covered by insurance.

\$3,857,951

in charitable assistance from AKF ensured that low-income Missouri dialysis and transplant patients could afford their lifesaving health care in 2024.

**INSURANCE
BREAKDOWN OF
AMERICANS WHO
RECEIVED CHARITABLE
PREMIUM ASSISTANCE
FROM AKF IN 2024**

Medicare Part B: **25%**

Medicare Advantage: **0.6%**

Medigap: **27.3%**

Commercial Employer Group Plans (including COBRA): **20.1%**
