

# All about the new Medicare immunosuppressive drug benefit

## Who is eligible?

### Individuals who:

1

Received a kidney transplant and their Medicare coverage is ending 36 months after their transplant

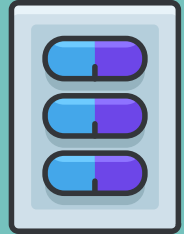

2

Do not have other health insurance

Federal legislation passed and signed into law in December 2020 created the new benefit under Part B, which will become effective on **Jan. 1, 2023**

Drugs covered are those specifically labeled as immunosuppressive drugs and approved for marketing by the FDA. The benefit only covers immunosuppressive drugs and is not a substitute for full health coverage.

# \$226

The annual deductible in 2023. Once the deductible is met, the insured person will pay 20% of the Medicare-approved amount for the immunosuppressant drugs.\*

# \$97.10

The monthly premium for the Medicare immunosuppressive drug benefit in 2023 (a higher monthly premium may apply based on income)\*

\*Individuals may be able to get help paying for this benefit from programs offered through their state and should contact their state's Medicaid office to learn more
