## Health disparities in kidney failure

KIDNEY FAILURE HAS A DISPROPORTIONATE IMPACT ON PEOPLE OF COLOR. COMPARED TO WHITE AMERICANS, THE LIKELIHOOD OF DEVELOPING KIDNEY FAILURE IS:

**4.3 x**

greater for Black Americans

**2.1 x**

greater for American Indians/  
Alaska Natives

**1.9 x**

greater for Asian Americans

**2.3 x**

greater for people of Hispanic/Latino ethnicity  
than people of non-Hispanic/Latino ethnicity.

**1 in 20**

White Americans  
with kidney failure

**1 in 13**

Black Americans  
with kidney failure

**1 in 10**

Hispanic/Latino Americans  
with kidney failure

## Why people with kidney failure need financial assistance from AKF:

Kidney failure is a disability. Dialysis is life support. Treating kidney failure and its comorbidities is more consuming than a full-time job: more than **80%** of people on dialysis cannot work.

**4,071**

Floridians on dialysis and living with transplants received grants from AKF in 2025 to pay for their insurance premiums and other health care-related costs not covered by insurance.

AKF ensured that low-income Florida dialysis and transplant patients could afford their lifesaving health care in 2024.

## About the American Kidney Fund

The American Kidney Fund (AKF) fights kidney disease on all fronts as the nonprofit with the greatest direct impact on people with kidney disease. AKF works on behalf of the 1 in 7 American adults living with kidney disease, and the millions more at risk, with an unmatched scope of programs that support people wherever they are in their fight against kidney disease—from prevention through post-transplant living. AKF fights for kidney health for all through programs that address early detection, disease management, financial assistance, clinical research, innovation and advocacy.
