## Health disparities in kidney failure

3.4X

greater for Black Americans

1.9X

greater for American Indians

1.3X

greater for Asian Americans

1.5X

## Why people with kidney failure need financial assistance from AKF:

510

Wisconsinites on dialysis and living with transplants received grants from AKF in 2021 to pay for their insurance premiums and other health care-related costs not covered by insurance.

\$1,805,991

in charitable assistance from AKF ensured that low-income Wisconsin dialysis and transplant patients could afford their lifesaving health care in 2021.
